

## Larry Wissel 2018 Annual Report

I wish to extend my continued thanks to the Presbytery for allowing me to work out of bounds with the West Union Presbyterian Church in Louisville, MS. It is my great privilege to serve this congregation with the freedom to bring God's Word each Sunday to the faithful.

We have continued in our study of Colossians this year and we are just entering Paul's final words of encouragement and fidelity to the people of Colosse. And while describing to the group that we would be continuing with a new study, I asked if there was any preference within our group for which Bible book they would like? Now for the first time I had a taker in my request when one member asked to re-study James, so that is what we shall do.

The Church continues to be very active in the work in Ukraine and we are blessed by the reports from Dr. Watson after each session. It will probably be within the next year that I return to Kiev, as a graduation will be in the offing.

In my bi-vocational pursuit, I have recently taken a job that takes me to Jackson, TN each week and the Lord has been very gracious to provide this employment.

I wish my best to all my Brothers in Christ and long to be with you again.
