

Trey Adams 2020 Annual Report

Dear Fathers and Brothers,

I pray that you and your congregation are doing well during these interesting times. We are currently based in Macon, GA as we await the world to return to some semblance of "normal".

As many of you know, we have served with Mission to the World in Thailand since my ordination in 2011. In May of 2019, we returned home from Thailand due to family illnesses here in the US and also due to threats from a Thai pastor and former national partner. In the months following our return to the US, we grieved the possible loss of our "home" and ministry in Thailand, sought rest and healing under the ministry of North Macon PCA, and, with many counselors and mentors, sought the Lord's direction on future ministry and calling. After a few months and an exploratory trip to visit two of MTW's Latin American sites, we felt that the Lord was still leading us to return to Thailand. Furthermore, we were vindicated of the accusations of our former national partner and a Christian Thai lawyer assured us that it was legally safe for us to return to Thailand. Before the pandemic we were on track to return to our team and ministries in Thailand by the beginning of July, but this has been delayed until international flights are again available. We hope to return by the end of August if the Lord wills.

Thank you for your prayer, encouragement and support over these past several years.

In Him,

Rev. Trey Adams
