

Yakub Susabda 2020 Anual Report

Dear Roger

This is our Annual Report.

At the age of 74 , I and Esther are still actively involve in Counseling and teaching ministry at the Seminary (Reformed Theological Seminary in Indonesia). This semester I am teaching on line by Zoom (since Covid -19 beginning of February 2020) 5 different courses (Theology Proper, Pastoral Counseling II, Integration between Psychology and Theology, Practicum Supervising, Theory and Practice Counseling II). Since we have to stay at home, I begin a new project of writing my new book on " Integration between Theology and Psychology: A contribution for Christian Living ." Pray that I will finish this project, hopefully by the end of August 2020, since I have already had all of the resources from my 20 years teaching experience on this topic. I and Esther are doing a lot Counseling on line and once a week we are invited in a talk show on several different topics such as " Resilient Faith," " Corona virus and Christian faith" etc.

I wrote (and distributed to many different church denomination) my Pastoral letters to the victim of Corona virus, to the family in time " staying at home " and " to the grieving of the lost one."

I and Esther are organizing several different ministries in this Covid 19 time by distributing free masks and Shields , foods for 1000 people's in need (most of them lost their job) twice a week through our Seminary, I and Esther also organized free Counseling ministry by distributing 100 counselor's names to churches and hospitals.

We also organize financial help to 25 pastors in need (most of them are ministering small congregations and they lost their in come since they have No Sunday service) Please pray that our ministries will be acceptable before our Living God.

Sincerely
Yakub and Esther Susabda
